Subject: Products from PR

All,

these are some specialty products I can get for under WAC that are great for hospitals and retail and/or specialty pharmacies. I need to know asap if its stuff we can move or I have to give pass the opp to another distributor who will likely be our direct competition.

SCS cost is what the company pays, we'd like to see markup ups of 15-20%+ but if we're getting paid upfront we can take a little less and use these as "account builders"

Thanks

Patrick Boyd | Managing Partner
